DOSE Topic:  
**First Who, Then What**

Check out some audio and video from Jim Collins speaking about this principle [here](#).

### Construction Junction

Today is Construction Awareness Day! From 8:30am – 10:30am in the MSU Union Ballroom, Infrastructure Planning & Facilities will provide regular opportunities for dialogue and engagement in order to inform MSU staff, faculty & students of construction designs & projects. This event is open to the public—stop in to hear what’s going on!

### Weather

**58°/35°**  
**Afternoon Showers**

### This Day in History:

2012 - Apple Inc claims a value of $600 billion making it the largest company by market capitalization in the world!

### Tech News

Stanford University engineers developed an Xbox controller using a 3D printer that measures heart rate, blood flow, breathing & other bodily functions to see how much the gamers are engaged!
