I am Responsible for Creating a Clean, Safe, and Accident-Free Environment

MSC Smokestack Bricks
Starting mid-August, the MSU Surplus Store will be selling 500-600 red bricks from the recently deconstructed MSC Smokestack. They will be $25 or $50 a piece and will come with a certificate of authenticity.

Tips for reducing workplace accidents and injuries
- Identify and eliminate high risk activities.
- Design jobs with current and anticipated workers in mind and tailor safety-training programs to your employees.
- Empower employees to engage in accident prevention and job design.
- Change mundane routines.
- Empower employees to be responsible for their equipment.
- Develop training programs based on behavior modeling.

37th annual Bailey Ice Cream Social
Sponsored by The Pump House board and the Bailey Community Association
Today, July 6, 2011
5:30-8:00
Attractions include face painting, a fire truck, a ukulele performance, and hand-made ice cream.

The most significant factor in workplace injuries are employee errors.
