Strategic goals are goals that:
- Define and enhance the student experience by promoting learning and development through interaction
- Create vibrancy and renewal that compels higher levels of satisfaction and achievement
- Celebrate student life by providing diverse spaces for a globally-minded, 24/7 student that is uniquely MSU.
- Initiate a transformative, world-class model of the residential experience with accessibility, sustainability and stewardship principles.

Several RHS team members recently travelled to China to bring back insights on Asian culture and cuisine to campus. The goal of the trip was to learn how we can better meet the needs of MSU’s growing international student population. The group traveled to China for 13 days, visited 4 regions and 3 universities. While there, MSU representative learned about incorporating reusable chop sticks into other silverware, and shed light on how we can better address international students here to make them feel more at home.

Recyclemania is right around the corner! The eight week recycling competition begins February 3 and ends March 30. To learn more about how you can get involved click, here.
