Stop by the MSU Horticulture Gardens to see their latest fun addition: a 40 foot dragon made of willow and metal! It was designed and created by Michigan artists Bim Willow and Lin McIntosh! You can even take a walk through the body of this dragon by entering at its mouth and exiting from its tail!

Take a peek at some of the pictures HERE!

**Trivia Time!**

Click here to send in your answer to Kathryn by 10 am today! All correct answers will be entered in a drawing to win a prize!

Good luck!

**Spotlight MSU: Canola Project**

Thanks to MSU’s Canola Project, canola can now be sold in the state of Michigan for a profit! With more than 40% of the seed being oil, canola is a crop that is placed at a high value and could really benefit the economy! With much of the canola oil in the US being imported, this industry is a great opportunity for Michigan that was all made possible by the work and research done at MSU! Click here for the full story!

Stop by the MSU Surplus Store...

Today from noon – 3:30 and take advantage of their book sale! All books are only 40 cents per pound!
