Weekly Lineup Topic

Teamwork and Inclusion

They’re not just one of our Divisional values, but they are also a big part of our culture and how we get work done here at RHS. Read this week’s issue of DOSE Weekly for the inside scoop.

Campus Drills

The RHS Health & Safety Office and IPF with be coordinating visual inspections of fire protection systems and conducting emergency evacuation drills in Owen Hall today. Inspections will carry on through Wednesday!

National Ice Cream Month

Tomorrow marks the start of July, and National Ice Cream Month! Beat the heat and celebrate with a fresh scoop from the Dairy Store of MSU! Remember that ice cream is not only a treat but also a member of the dairy group, thus providing an excellent source of vitamins, energy, protein, minerals and calcium!

Blueberry Picking

Did you know that Michigan is the largest producer of blueberries in the nation? Growers are predicting that the berries will be ready for picking around July 4th! Remember that blueberries have the highest nutritional value of all fruits; low in fat, sodium free and a great source of fiber and Vitamin C! Check out these yummy blueberry recipes courteous of Driscoll’s!

Corpse Flower

The rare Corpse Flower has been the talk of the town this past week, which has bloomed for the first time since 2010. However the bloom usually only lasts 24-48 hours. If you missed seeing it visit the MSU homepage for a time laps video of the bloom!

FRIB Construction

Construction is under way for the new Facility for Rare Isotope Beams (FRIB) along Wilson Road and Bogue Street! Costing around $730 million, this facility will allow scientists and researchers from all over the world to use a particle accelerator to produce new isotopes. The research is intended to ultimately improve isotope and radiation usage in medicine.

According to the U.S. News & World Report, MSU is ranked first in graduate programs for nuclear science, and the FRIB, scheduled to be entirely complete by 2022, is sure to make MSU one of the most pursued campuses for isotopic research! GO GREEN!
