Our Values: Bolder By Design

Here at MSU, we have been entrusted with so much. We are the keepers of this great institution. Founded in 1855, the university has enjoyed many years of educating our students and serving our state, so we have to be good stewards of our resources and be an organization worthy of donor's trust.

HOW WELL DO YOU KNOW MSU’S E-WASTE RECYCLING POLICIES?

MSU Surplus and Recycling Center accepts many forms of E-waste at their Bogue and Service Rd. location! Scrap materials from recycled electronics and appliances are either refurbished and sold through the Surplus Store, or are broken down into smaller, more specific recyclable parts, which eliminates the risk of them harming the environment in a landfill!

It’s important to know which materials are accepted by MSU and the proper procedure for recycling them, because not all materials can be dropped off at the public drop off stations provided on campus. If you are interested in recycling any of the below materials, be sure to check out their environmental waste concerns and varying disposal procedures!

- Computers
- Fluorescent tubes
- Household appliances
- Ink jet cartridges
- Refrigerators
- Toner cartridges
