 WEEKLY LINEUP TOPIC

RHS STRATEGIC IMPERATIVES
INITIATE A TRANSFORMATIVE, WORLD-CLASS MODEL

VISIT myrhs.msu.edu and read this week’s edition of DOSE Weekly!

![Infographic](#)

Have you heard about Michigan State University’s capital campaign worth $1.5 billion? What is called Empower Extraordinary will increase the number of academic scholarships, invest in faculty and academic positions and expand MSU’s global research capacities!

RHS FALL TOWN HALL

Tomorrow is the RHS Fall Town Hall Meeting!

Two meetings will be hosted throughout the day in the MSU Union Ballroom, the first starting at **10 a.m.** and the second at **1 p.m.**

Please stop by to hear divisional updates! Feel free to also ask any questions you have for the division!

DAY LIGHT SAVING

Could daylight saving time be a risk to people with diabetes?

Saleh Aldasouqi, associate professor of medicine at MSU, made a very wise suggestion for diabetics who use insulin pumps.

Everyone remembers to change their clocks back and forth twice a year, but do diabetics remember to also change the clock on their insulin devices? The wrong dosage time could do much as to deliver too much insulin to a patient, possible triggering siezures or fainting spells! Read more from his article in the Journal of Diabetes Science and Technology, [here](#)!
