Reflection on this week’s topic: Questions to ask yourself.
What has been the most beneficial training class you have taken thus far in your career? What were the most helpful things you learned? What types of training courses would you like to see offered?

Do you have items around your house or apartment that are just taking up space? Don’t have time for a garage sale or aren’t exactly sure how to get rid of the items? Take this weekend to pack your car and head over to the Recycling Center next week, Monday-Friday, 7:00am-3:00pm to donate your items for re-use! There will also be free paper shredding!

Click here for more information on the MSU Surplus Store’s Website!

Here is a list of items they will be accepting at this event:
- E-waste and household electronics: Personal computers, keyboards and mouses, TV’s, monitors, telephones, cell phones, laptops, VCR’s, printers, scanners, microwaves, copy machines and small items such as coffee makers, vacuums and toasters.
- Good, usable furniture (no mattresses)
- Sporting goods including bicycles and exercise equipment
- Books, magazines, DVD’s and CD’s
- Scrap metal
- Appliances
- Holiday decorations
- Knick knacks and trinkets
- Kitchen items

Take a tour of the universe at Abram’s Planetarium this weekend! Fly through the solar system and do some sight-seeing! Click here for more information!
